Webinar: Applications of Telegenetic Counseling in Research and the Clinic

Thursday, Jan 9

Join Health Resources and Services Administration as they host "Applications of Telegenetic Counseling in Research and the Clinic webinar."

The practice and delivery of healthcare is changing with an emphasis on improving quality, safety, efficiency, and access to care. Telemedicine is an avenue to achieve these goals. The Arizona Telemedicine Program, the Southwest Telehealth Resource Center and the University of Arizona Health Sciences Genetics Counseling Graduate Program will provide insight on the implementation and practice of telegenetics.

Webinar: The National Association of County & City Health Officials (NACCHO): Policy, Partners, and Preemption: Opportunities and Challenges for Local Public Health

Tuesday, Jan 14

Join NACCHO to learn ways to increase the capacity of local health departments and their partners to create the conditions for health through local public health policy.

Local public health policies can have a positive impact on the health of communities, creating healthier conditions

Wednesday, Jan 15

Building upon previous efforts aimed at reducing low-value care, partners of the Going Below The Surface Forum (GBTS) have developed a roadmap to guide health care stakeholders as they consider and implement low-value care interventions. This online learning event will assist in defining and understanding low-value care and its importance to various stakeholders.
